A Convention on the Future of the Modeling and Simulation Profession, Industry, and Marketplace

'SimSummit' is a prospective Convention of the world's most influential modeling and simulation organizations being planned for 18, 19 July 2002 in San Diego, CA and being coordinated jointly by the Society for Modeling and Simulation International (SCS), the Simulation Interoperability Standards Organization (SISO), and the National Training Systems Association (NTSA). The Convention and workshop will include institutional participants from academia, government, private industry, and the professional societies. The objective of the meeting is no less than to significantly advance the evolution of the modeling and simulation profession, industry, and market.
