

Participation in the Initiative on The Economics of Modeling and Simulation

In order to gauge the interest of the M&S community in the topic of 'the Economics of Modeling and Simulation', we are interested to compile your responses to the following questions:

- **Does the economics of modeling and simulation matter to you?
Why?
(*what motivation?*)**
- **What understanding or capacity for application of the understanding of the economics of modeling and simulation would make a difference to you?
(*what requirements?*)**
- **What could (or should) we do together to investigate the area of modeling and simulation?
(*what action?*)**

In order to register your interest and to informally join the initiative, please provide the following information:

Name:
Organization:
Phone:
e-mail:
Comments:

Any information provided in this context will be used only to administer the initiative. You will not be subject to unrelated information, nor will this data be provided to any other individual or organization without your express permission.

Respectfully,

Bill Waite
