

Meeting Focus of the December 2004

***SimSummit* Workshop**

W. Waite, F Cellier, W. Katz, and F. Lewis
SimSummit Executive Committee

The December 2004 meeting is intended to facilitate identifying (and publishing) a consensus 'TOPICAL AGENDA' for the community whereby the common interests of organizations even beyond the *SimSummit* Conferees may subscribe interest and so find fruitful collaboration.

The Executive Committee will circulate a draft topic list and ask that each organization indicate: a) what 'puts and takes' they'd recommend and b) the terms on which they would agree to get-to-ground on a common list that could be published and widely promulgated.

No formal commitments or resources are expected to be requested at the meeting – it is an information exchange and consensus building exercise only.
